

Versa, Pro, Lite

The EASyL standard pochade models meet the demands of even the most discerned artists. They equip with all-in-one design, include palette, storage spaces for supplies and wet panels. They are made of the best beech wood with clear lacquer coating for protection while maintaining the beauty of the natural wood grain, all metal parts are either stainless steel or solid brass, and with rust proof screws. The superb craftsmanship and quality will ensure your plein air painting to be easy to set up and comfort, no more hassle.

Features of EASyL easels:

The patented side hinges and knobs allow the ease of adjusting the angle of the palette or panel holder so that both will keep away from glare. This patented, unique ergonomic and innovative design of upper panel holder T-bar will help to raise the panel at a higher eye level to paint, while your elbow feels comfortable when mixing colors in the palette in a much lower position.

Artists can choose from various size pochade boxes, for both indoor studio painting and outdoor painting purposes, and paint in oil, water or pastel.

Each set comes with:

- 1- Collapsible easel and palette combination box.
- 1- Stainless steel gold brush holder.
- 2- Brass hooks for hanging brush washer.
- 1- Shoulder strap and leather handle.
- 1- Heavy duty lightweight professional tripod with two quick release plates, and a carrying bag.

Optional items:

- Grid separator for pastel.
- Brush washer 10oz, or 20 oz.
- Palette cups, single or double.
- Side Tray, Palette Extension board.
- 3/4" wide lower support plate for stretched canvas.
